

We aim to operate an organisational model that reduces our impact on the environment, both in the office and on tour. We encourage artists, organisations and venues collaborating with us to work towards achieving this goal through implementation of our Environmental Policy and Action Plan as a contractual requirement.

Our Aims are:

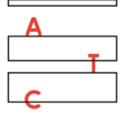

- to reduce ATC's resource consumption (energy, water, carbon emissions, creation of waste, use of pollutants) and make significant progress towards carbon neutrality;
- use our activities to promote environmental sustainability among our audiences and artistic partners;
- integrate sustainability in all our planning and management decisions.
- Focus on "People, not Stuff" as a key driver for our aesthetic and green agenda

Our Actions Are:

- We ensure compliance with all relevant environmental legislation.
- We educate and motivate staff to conduct their activities in an environmentally responsible manner.
- We minimise carbon emissions from travel and transport of team members, artists and participants.
- We communicate our environmental policy and practice through our artistic programme.
- We share the best practice with other organisations and artists and promote it among audiences.
- We take environmental issues into account in every aspect of productions we work on.
- We explore different options with regards to materials used in the design of the set, costumes, props, lighting, and an "exit strategy" (i.e. re-use/recycling) for all materials used.
- We recycle waste.
- We aim to reduce printed materials produced by ATC.

We carry out a regular review of our environmental policy to ensure its ongoing effectiveness.

Our Measures are:

- 1. TRAVEL
- Members of our team get to work by bicycles or public transport.
- We travel by trains wherever it's possible and never use planes within the UK.
- We maximise every trip to achieve multiple aims re: networking, sourcing new partnerships/artistic content.

2. OFFICE

- We collaborate with our landlords ICA to measure our electricity, water, gas usage and thus the environmental impact of our office.
- We recycle paper, plastic and glass in our office.
- We don't print scripts but read them on devices.
- We print double-sided only and use scrap paper.
- We turn off all equipment that is not in use.

3. MARKETING

- We encourage our audience to use the website rather than leaflets and advise them on how to recycle our printed materials.
- We advise our audiences how to recycle our promotional materials.
- We discuss minimising prints for each of our productions with venues' marketing teams.

4. **PRODUCTION**

- We measure the carbon footprint of all our productions.
- We opt for sustainable and recycled materials for props and staging.
- We reuse and recycle sets and props as much as possible.
- We store sets and props post-production where possible.
- We attach our Environmental Policy and Green Riders to all contracts for full, part and freelance employees and partners including actors, creatives, co-producers and touring venues.

Date Range: April 2022– March 2023

ED = Executive Director AD = Artistic Director AdminD = Administration Director BD = Board of Trustees

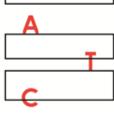

Main Office

We are committed to monitoring and minimising the environmental impacts of our office practices and business processes as much as possible.

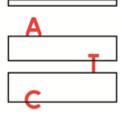

Action	How	Who	Timeline

Business Travel and Staff Commuting

We are committed to monitoring and minimising the environmental impacts of our business travel and encouraging staff to consider low GHG emission-commuting options.

Action	How	Who	Timeline
Conduct an annual audit of business travel to assess travel and quantify the greenhouse gas emissions associated with that travel. The audit should be plotted against business activity.	Collect the information from expense records and flights/trains reservations. Use the free web-based IG Office Tool available on the Julie's Bicycle website.	AdminD AdminD	in line with travel plans Annually
Evaluate organisational benefits of business travel where applicable.	Discuss merits of attending the event for organisational reach and maximise value from business trip. Organise multi-purpose trips for all international travel.	ALL	in line with travel plans
Use train services whenever possible.	Research options and book tickets in advance to get best rates. If being invited to an event use public transport services.	GM ALL	in line with travel plans in line with travel plans
Ban flights within the UK.	Only take internal flights when no other option is feasible and the attendance is business critical.	ALL	in line with travel plans
Support car-pooling and lift sharing.	Staff to share information about travel planning.	AdminD/ ALL	in line with travel plans
Encourage staff cycling and walking.	Make sure the staff are updated on any travel disruptions and therefore able to plan journey to work ahead.	AdminD	ongoing
Measure staff commuting impact on annual basis.	Find ways to collect the data. Use Julie's Bicycle IG tools.	AdminD	Annually

Artist and Audience Travel

We are committed to minimising the environmental impacts associated with our artist travel; audience travel; and encourage our stakeholders to consider low greenhouse gas emission travel options (e.g. cycling, public transportation, etc.).

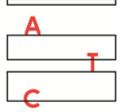

Action	How	Who	Timeline
Encourage the use of bus, tube, train and coach services whenever possible – during rehearsals and also whilst on tour.	Share information on how to get to rehearsal spaces and venues by public transport with stage managers, artists and creative team; include this information in schedules and email correspondence with creative and	AdminD	in line with rehearsal and tour schedule
	production teams. Inform collaborators about your travel policy in green riders added to the contracts.	ED	when booking tour
Encourage cycling and walking.	Encourage actors to walk or use bikes (including local bike hire schemes) around venues. List facilities for cyclists provided by venues on the website.	AdminD /stage managers	in line with rehearsal and tour schedule
	Assess potential for personal bikes to be added to tour van for each company.	stage managers /producti on managers	as per production schedule
